Cohoes Falls Apartments

Preservation and rehab of 66 affordable rental units using \$11.7 million in funding from TCB's Neighborhood Stabilization Program 2 (NSP2) grant.

Cohoes Falls Apartments is a scattered-site, Project-Based Section 8 preservation initiative located in the City of Cohoes in northern Albany County. Cohoes is a turn-of-the-century textile mill town, with historic masonry structures and beautiful views of the falls at the confluence of the Mohawk and Hudson rivers. This \$17 million project will preserve 66 units of affordable housing for families by rehabilitating seven different buildings. In addition, this development involves the construction of a new, LEED-Certified community room and site office where a building burned down less than ten years ago in order to create a permanent and prominent presence for TCB in the community.

Cohoes has experienced the industrial and capital flight endemic of smaller upstate New York communities, leaving a large number of distressed, vacant, and abandoned buildings in the City. This project is TCB's first phase of a redevelopment strategy for the City using Neighborhood Stabilization 2 (NSP2) funding to address this problem, dovetailing with the successful and on-going conversion of the adjacent Harmony Mills complex into high-end market rate housing. The project scope includes remediating environmental contaminants, addressing building code violations, and converting the existing electric baseboard heating system to a more efficient gas boiler system.

The development team has already received commitments from The Community Builders for NSP2 funds in the amount of \$11.7 million, of which \$1.6 million shall serve as a permanent source. New York State Homes and Community Renewal awarded \$989,463 in Low-Income Housing Tax Credits in the 2010 Unified Funding Round, which shall generate over \$8.1 million in private equity toward this development. The team has also secured \$500,000 in Federal Home Loan Bank Affordable Housing Program Funds. A new first mortgage of \$2.1 million, obtained from the Community Preservation Corporation through the New York State SONYMA program shall provide hard debt for the project. Federal and State Historic Tax Credit equity of \$2.6 million and a deferred developer fee of \$200,000 rounds out the project's sources and uses.

Project Highlights

- Preservation and rehab of 66 affordable family rental homes
- New construction of a LEED-certified community room and site office
- TCB Roles: Owner, Sponsor, Developer, Management Agent
- NSP2 Funds Committed: \$11.7 million
- Total Development Cost: \$17 million
